Mackenzie Financial Corporation, Toronto, Ontario	Approximately 25% of the Fund will be invested directly in Mackenzie Focus Fund. Mackenzie Focus Far East Class

Effective September 4, 2011, the Prospectus is amended by deleting the table and paragraphs 1, 2 and 7 on page 110 under the heading "Investment Strategies" and replacing the table and paragraphs 1, 2 and 7 with the following:

Portfolio Management Firm*	Investment Style and/or Specialty

* We will give Fund investors at least 30 days' notice of any change of a portfolio management firm, along with details of the new portfolio management firm's investment style and/or specialty.

- The names of the portfolio management firms, and their investment style and/or specialty for this Fund are set out in the following table:
- Each lead portfolio manager will select approximately 10 to 12 core holdings for his or her portion of the portfolio. These portfolio managers may increase the number of securities if in their opinion the Fund's assets exceed an amount that makes the limit too restrictive or in other situations where they consider it would be beneficial to the Fund.

- The portfolio manager's and/or sub-adviser's investment styles may result in a higher portfolio turnover rate than less actively-managed funds. Portfolio investments will be sold, and the proceeds reinvested, when the securities no longer meet expectations of continued gains. High portfolio turnover rates can increase portfolio costs and may also increase the likelihood that you will receive capital gains dividends from the Fund. There is no proven relationship between a high turnover rate and the performance of a mutual fund.
